

1. **Horario atención a estudiantes, correos electrónicos y nombres de los profesores complementarios**

Clase magistral

Profesor: Leopoldo Fergusson (lfergusson@uniandes.edu.co)

Horario de clase: Martes de 5:00pm - 6:50pm

Salón: (Pendiente)

Horario de Atención: Martes y Jueves, 10.00am a 12pm. Oficina W-812

Para reservar una cita conmigo, siga las instrucciones de la sección “Atención a Estudiantes”, en: <http://economia.uniandes.edu.co/fergusson>

Profesor Asistente

Profesor: Juan Felipe Riaño R (jf.riano48@uniandes.edu.co)

Horario de atención: Jueves 1:00pm - 2:00pm, Oficina W-815

2. **Objetivos de la materia**

La economía y la política están estrechamente relacionadas en la realidad, y como tal deben ser analizadas. Este curso estudia, en campos variados, cómo las instituciones y procesos políticos influyen en la economía así como la forma en que la economía influye en la política. El curso se concentra exclusivamente en aplicaciones empíricas, aunque muchas de ellas estén motivadas por los avances teóricos de la (nueva) economía política.

El objetivo principal es presentar las investigaciones recientes más significativas sobre la relación entre economía y política, en un amplio conjunto de tópicos.

Un objetivo complementario del curso es hacer énfasis en las diferentes estrategias empíricas que con mucha astucia deben diseñar los investigadores en esta rama de la economía para resolver los enormes problemas de endogeneidad que se enfrentan. Así, las aplicaciones empíricas estudiadas variarán no sólo en temas sino en metodología, incluyendo desde experimentos naturales, hasta el uso de encuestas especialmente diseñadas y los experimentos en laboratorios y de “campo”.

Un tema que será dejado de lado en este curso será el de la *economía política del desarrollo*. Esto, porque típicamente durante la Escuela Internacional de Verano, estos tópicos son discutidos en el curso “Desarrollo de América Latina en el Largo Plazo” del Profesor James Robinson y secuaces.

3. Contenido

El contenido del curso, con las lecturas respectivas, se encuentra detallado semana por semana en la [lista de lecturas](#).

Se deben tener en cuenta las siguientes fechas importantes:

Marzo 21: Fecha límite de entrega del 30 %¹.

Abr 14 - 18: Semana de trabajo individual.

Marzo 28: Fecha límite de retiro de materias.

Mayo 12 - 26: Semanas de exámenes finales

Mayo 12: Fecha de entrega de proyecto de investigación (estudiantes de Maestría).

4. Metodología

No hay libro de texto, en cada sesión se discutirán una serie de lecturas asignadas obligatorias que *deben leerse antes de clase* y algunas lecturas adicionales complementarias. En la clase se busca fomentar la participación activa de los estudiantes.

El curso está abierto a estudiantes de Maestría y de Pregrado.

5. Competencias

Aprender a identificar preguntas relevantes de investigación en economía política, conociendo además los grandes temas de debate en los tópicos estudiados.

Aprender los alcances y limitaciones de las posibles estrategias empíricas que pueden plantearse para contestar dichas preguntas.

Desarrollar la capacidad de formular una pregunta válida de investigación junto con una estrategia para contestarla.

Leer críticamente un artículo de investigación, identificando sus fortalezas y debilidades tanto de forma como de fondo.

Desarrollar habilidades de expresión escrita y oral.

Trabajar en grupo.

6. Criterios de evaluación

Las actividades de clase que serán evaluadas son las siguientes:

- Participación en clase.
- Comprobaciones de lectura.
- Un “referee report” de un ‘paper’ elegido, entre las lecturas obligatorias, de común acuerdo entre el estudiante y el profesor. El “referee report” se presenta en parejas, y debe ser expuesto por uno de los dos estudiantes, elegido al azar, en no más de 10 minutos de clase. El primer día de clases se asignarán fechas para presentación de referee reports y se explicará qué se espera del referee report.

¹Para el 21 de marzo, los estudiantes tendrán como las notas correspondientes a: 12.5 % (o 17.25 %) por las comprobaciones de lectura realizadas hasta la fecha, y 15 % (o 20 %) por una nota de participación preliminar. Es decir, comunicaremos a cada estudiante su nota de participación hasta el momento, la cual puede cambiar según lo sucedido en la segunda mitad del semestre. Adicionalmente, los estudiantes que ya hayan presentado referee reports, tendrán definido un 30 % (o 45 %) adicional de su nota

- **Para estudiantes de Maestría: Mayo 12:** Presentación de un proyecto de investigación (motivación, literatura relacionada, fuentes de datos, estrategia empírica). NO se trata de culminar un proyecto de investigación, sólo de plantearlo coherente y claramente.

Los porcentajes de cada evaluación aparecen en la siguiente tabla.

Cuadro 1: Actividades y porcentajes de cada evaluación

Actividad	Maestría	Pregrado
Participación en clase.	15 %	20 %
Comprobaciones de lectura.	25 %	35 %
Informe escrito del referee report.	20 %	30 %
Presentación del referee report.	10 %	15 %
Proyecto de investigación.	30 %	0 %

Nota: Los estudiantes de pregrado que quieran presentar propuesta de investigación pueden hacerlo y enfrentan los porcentajes de evaluación de los estudiantes de Maestría.

Nota importante: los estudiantes deben seguir celosamente las reglas para citar trabajos de otros, tanto en los referee reports como en las propuestas de investigación. Violaciones en este sentido, así como el plagio en comprobaciones de lectura, se consideran faltas graves que no deben tener cabida en el ambiente académico.

7. Sistema de aproximación de notas definitiva

Se aproximará la nota definitiva al múltiplo de 0.01 más cercano.

Política de Reclamos (Artículo 62 del Reglamento de Estudiantes) Todo estudiante que desee formular un reclamo sobre las calificaciones de cualquier evaluación o sobre la nota definitiva del curso, deberá dirigirlo por escrito y debidamente sustentado al profesor responsable de la materia, dentro de los ocho (8) días hábiles siguientes a aquel en que se dan a conocer las calificaciones en cuestión. El profesor dispone de diez (10) días hábiles para resolver el reclamo formulado; vencido el término informará al estudiante la decisión correspondiente.

8. Bibliografía

La bibliografía puede consultarse en la [lista de lecturas](#).

Aplicaciones Empíricas en Economía Política

Lista de lecturas

Temario del curso con lecturas obligatorias (*) y complementarias (●):

A continuación el temario del curso organizado por sesiones. A partir de la segunda sesión es indispensable la lectura de los artículos previo a cada sesión. **Lea con detenimiento** para identificar las lecturas obligatorias de cada sesión (note que no siempre están listadas al comienzo de cada tema).

Me reservo el derecho de modificar algunas de las lecturas obligatorias acá listadas. Cualquier cambio será notificado con una semana de anticipación. Pueden consultar mi página web para tener siempre la versión más actualizada de esta lista de lecturas. De hecho, conviene considerar la lista a continuación más o menos definitiva para las primeras 5 o 6 sesiones, pero aún preliminar para sesiones siguientes.

1. Introducción a las Reglas de Juego y Métodos (Sesión # 1-3)

a) El problema de inferencia causal y métodos para enfrentarlo

* Paul W. Holland. Statistics and causal inference. *Journal of the American Statistical Association*, 81(396):pp. 945–960, 1986. ISSN 01621459. URL <http://www.jstor.org/stable/2289064>
