

Invitation to the 19th ECONOMÍA Panel Meeting

We are glad to invite all interested students and professors to assist our next Panel Meeting to be held at Universidad de los Andes on April 17th, from 9am to 5pm.

The agenda is available at <http://www.cid.harvard.edu/Economia/agenda.htm> and papers are downloadable.

Economía is the journal of the Latin American and Caribbean Economic Association/LACEA. It was launched in 2000. Modeled after the Brookings Papers on Economic Activity and published by the Brookings Press, Economía is a policy journal that is, one in which new theories or techniques are applied to policy questions, and not simply presented for their own sake. We seek papers on issues that are both at the forefront of the policy agenda and of broad interest to countries throughout Latin America and the Caribbean. We aim for the highest standards of theoretical and statistical rigor, but will only publish papers that are written in a style and language that makes them accessible to policymakers.

As does the Brookings Papers on Economic Activity, our journal also holds panel meetings twice a year, one in conjunction with the LACEA conference and One in Harvard University. These meetings are possible thanks to the generous donations of our sponsors: The World Bank, LACEA, Fedesarrollo, Yale University and The David Rockefeller Center for Latin American Studies at Harvard University.

We will be presenting and discussing six papers on Friday, April 17 2009. Please feel free to join us!
